

Pulls & Knobs Solution

ELEVATE YOUR SPACE WITH ELEGANT PULLS & KNOBS

Enhance every cabinet in your home with our stylish, high-quality Cabinet Pulls and Knobs. Available in a variety of finishes and materials to match any décor.

Designer Tips for Choosing the Perfect Pulls & Knobs

Style Match

Knobs have a smaller profile, adding less visual weight and offering a subtle accent to cabinets. Pulls are larger, creating a bolder statement and a more impactful design. Sleek designs for modern cabinets and detailed profiles for ornate styles. Ensure the hardware size is proportional to your doors and drawers for a balanced look.

Comfort First

Choose hardware that is comfortable and easy to use daily. Ensure knobs and pulls are large enough to grip easily, especially if you have larger hands.

Proportional Size

When choosing cabinet hardware, consider these size guidelines for proper proportions:

1. **Drawer Pulls:** The pull length should typically be $\frac{1}{3}$ to $\frac{2}{3}$ of the drawer width. For a 30-inch drawer, a pull length of 10 to 20 inches works well.
2. **Knobs and Pulls for Doors:** Ensure the size allows for comfortable handling, with pulls generally ranging from 3 to 7 inches in length depending on the door size. These ratios help maintain visual balance and functionality.

Finish

When selecting hardware finishes, match them with your cabinet's style and tone, using sleek finishes for modern looks or textured ones for traditional designs. Mixing finishes, like matte black with brass, adds depth, but avoid pairing overly similar tones to maintain contrast.
